September 05 – 07, 2018

Coordinator: Prof. V. Ravi, Professor, IDRBT

Introduction

When nearly two billion people are using social media world over, banks must seriously think of engaging them using social channels. This is eminently true of Gen X and Gen Y customers, who expect the banks to listen, respond and offer services through social media in a highly personalized manner. This is because such customers either do not like to visit the brick and mortar branches or there is no necessity to do so, given the onslaught of the technology in banking, wherein anyone can do banking within the comforts of their homes.
