### Introduction

Governance, Risk and Compliance (GRC) are the three major areas of focus for organisations to function efficiently and effectively so that they can move ahead on the chartered path to achieve the corporate goals. Governance is the overall direction and supervision from the board and the top management. Risk Management is a continuous process of evaluating the potential risks that the organisation is facing on all fronts and taking adequate and timely measures to protect the organisation from adverse effects posed by those risks. Compliance is a need for meeting regulatory requirements applicable for the activities in which the organisation is engaged. Compliance also entails strict adherence to rules, regulations and norms set by the organisation for itself, its staff and other stake holders.
