## Introduction to IT Project Management

November 23 - 26, 2020

---

### Introduction

Today every aspect of banking is enabled by IT platforms. As technology is evolving at breakneck speed, there is a rising demand for managers to work faster, smarter, and leaner - often with reduced staff and/or through outsourced service providers.

Project Management can make or break the project and the teams involved in the execution. Experts all over the world have noted that project management expertise holds the key to greater innovation, improved business performance and consistent achievement of success across industry, government and community. This e-programme is designed to expose managers working in banks to the current practices in project management, so that they are better equipped to face the challenges posed by their dynamic environment.

### Objective

To provide a foundation in Project Management Principles and Practice to bankers involved in managing IT projects.

### Contents

- This e-programme will provide a quick overview of various aspects of software engineering and will delve into various aspects of project management such as Software Engineering, Basics of Requirements Definition, Stakeholder Management, Architectural Design Patterns, Non-functional aspects of IT Projects, Planning and Resource Management, exposure to Dev+Sec+Ops, Change Management, COBIT-2019 framework, and so forth.
- The e-programme will not only help improve the value we are generating for our organisations, but also improve the value of our lives as we can deliver more output with less effort in shorter times. Special emphasis will be given on management challenges on account of IT projects utilizing Software-as-a-Service, Cloud-based Deployments and Project Management for Mobile Applications.

### Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars, and course material will be made available in advance for study.

### Who Can Participate?

Officers involved in Managing IT Projects in banks and financial institutions, including vendor management for ongoing support.

### End Use:

Participants will have a better understanding of the terminology, processes and methodologies used in Project Management. They will be exposed to tools that will enable them to manage their internal projects and outsourced partners more efficiently, improve the experience of all their stakeholders, and enjoy greater job satisfaction.

### Programme Coordinator:

**Dr. P. Syam Kumar**, Assistant Professor, IDRBT;

E-mail: [psyamkumar@idrbt.ac.in](mailto:psyamkumar@idrbt.ac.in)

### Fees:

#### **For Indian Participants**

- RRBs & Coop Banks: Rs. 8,850/- (Rs. 7,500/- + 18% GST)
- All Other Banks & FI's: Rs. 11,800/- (Rs. 10,000/- + 18% GST)
