BASICS OF IT VENDOR MANAGEMENT

September 28 – October 01, 2020

Introduction

Vendor management is the key to efficient and effective functioning of an IT department in a bank. Vendor management is saddled with several challenges including identifying the right vendor and the right solution, ensuring that the solutions meet their expected requirements, and continuing support from vendors. What banks need is to equip their IT teams with the skills relating to vendor selection and management. This programme addresses this specific need.

Objective

To understand the principles and practices of vendor management/procurement management processes.

Contents

- Vendor engagement models and process stages
- RFPs and Service Level Agreements
- Risk and audits for vendor engagement
- Best Practices
