e-Programme on

DATA CENTER MANAGEMENT

April 19 - 22, 2021

Introduction

With the implementation of Core Banking Solution, every bank has set up a data center. Most of the banks are now passing through a stabilization phase. With growth in business, now, the focus is more on scalability, efficiency, and improved performance of the data center. In this context, this programme helps managers of various data centers to improve the operations of their data centres to the optimum level in tune with international best practices.

Objectives

- To understand the concepts and intricacies of data centers
- To explore and experience data center management practices to improve efficiency and effectiveness in this crucial area of operation.
- Virtualization technologies for flexible resource management in virtualized data centers

Contents

- Data Center Design and Planning
- Data Centre Infrastructure Management (Building, Power, HVAC, Cable, physical layer)
- Business Continuity Planning and Disaster Recovery
- Data Centre Auditing
- Virtualization and Virtual Data centres
- Case Studies

Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars and course material will be made available in advance for study.
