FUNDAMENTALS OF WI-FI SECURITY

April 20 – 23, 2021

Introduction

Today everybody is on the move and wants to get products and services when on the move. Delivery of banking and financial products & services is no exception. It has now become more critical to remain physically disconnected in the post COVID-19 world.

In this scenario, remaining connected through wireless has become all the more important. That, this is to be achieved in the most secure way, cannot be stressed enough, given instances of data theft, privacy issues, financial frauds through numerous ways of hacking wireless connectivity.

This e-programme gives the fundamental understanding, starting with the most basic concepts, building upon newer technologies and best practices, for implementers and users alike.

Objective

This e-Programme will give greater insight and understanding of wi-fi security. It will help participants in better management of their wireless network connectivity vis a vis organisation's business requirements, whether in-doors or out-doors, and over private or public networks.

Contents

- Introduction and background, Wireless LAN and its security
- Threats and Vulnerabilities
- Concepts: Modes of Access and Protocols
- Security Measures and Encryption Methods
- Case Study – Banking Domain

Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars, and course material will be made available in advance for study.

Who Can Participate?

Officers from IT departments, Officers heading General Banking functions as they are core and critical users of wireless networks and can guide their departments, Officers managing banks' networks, Officers who are handling and managing banks' critical data going thorough wireless networks.

End Use:

To provide basic understanding of Wi-Fi security, for safe user experience of wireless connectivity and to help wireless connectivity providers in the bank in fulfilling their duty in a secure way.

Programme Coordinator:

Dr. N. P. Dhavale, Associate Professor, IDRBT;

e-mail: npdhavale@idrbt.ac.in
