e-Programme on

EMERGING TECHNOLOGIES FOR BANKING

January 27 - 29, 2021

Introduction

We cannot live in today's world without technology. Banking is not an exception. With the continuous development of newer technologies, we, at every moment, also face the dilemma of whether we should embrace new technologies or continue with relatively older ones. Therefore, banking personnel must continuously update themselves about the developments in technology frontier. Moreover, they should envisage the upcoming technologies and prepare their banks to adopt the technologies for better needs.

Objectives

In this context, this e-Program on “Emerging Technologies for Banking” will cater to the appetite for technologies of the banking personnel. This program will address the following:

- Enlighten the required technologies to address particular problems in banking sector
- Highlight the importance of embracing certain relatively new technologies in banking sector
- Provide across-discipline training where a person working in a particular domain will get to know about other technological domains
- Provide updates of new technological trends across other industries

Contents

- Artificial Intelligence/Machine Learning Applications for Banking
- Robotic Process Automation
- Block Chain
- Continuous Authentication Using Behavioural Biometrics

Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars and course material will be made available in advance for study.
