TECHNOLOGIES FOR FINANCIAL INCLUSION

JUNE 01 - 04, 2021

Introduction

Financial Inclusion means extending banking services at an affordable cost to the vast sections of disadvantaged and low-income groups. The Reserve Bank of India has mandated that banks extend their outreach taking banking service to the common man. Extending banking to the rural areas where there are no bank branches, consistent power supply or communication links such as telephones or Internet is a daunting task. One solution that RBI has come up with is to enable customer's intermediate banking facilities through business correspondents who act as agents on behalf of banks.

Objective

To explore various technological options and technological solutions for Financial Inclusion.

Contents

- Fingerprint and IRIS Authentication
- Fingerprint and IRIS Standards
- Smart Cards
- UPI
- Aadhaar enabled payments

Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars and course material will be made available in advance for study.

Who Can Participate?

Officials working in the Financial Inclusion as well as those wishing to take up the Financial Inclusion initiative. Level: From Scale I to IV.

End Use:

Participants will have a better understanding of financial inclusion technologies and operations. They will be able to manage operations efficiently and effectively.
