EMERGING CYBER SECURITY PRACTICES

March 02 - 05, 2021

Introduction

As cyber-attack landscapes are becoming more and more complex, traditional security practices are not sufficient to protect the businesses. It is required to bring in additional capabilities to bolster defences. In this programme, few such emerging cyber security practices will be discussed.

Objective

Availability of suitable skill set in some of these emerging cyber security practices is limited. Hence, the objective of this programme is to build capability of banks on the emerging cyber security practices.

Contents

- Dark Web Monitoring
- Threat Intelligence
- Threat Hunting
- Continuous Authentication
- Zero-Trust Model

Mode of Teaching

Online teaching plus learning inputs through reading material, videos, webinars, assignments, quizzes, online interactions and clarifications. Each e-Programme will have four live webinars, and course material will be made available in advance for study.

Who Can Participate?

Officials from IT, Information Security, SOC, Risk, Audit and Supervision Departments of Banks and Financial Institutions (across all levels in the hierarchy).

End Use:

Participants will have a better understanding about these emerging cyber security practices. This, in turn, will help the banks to improve their cyber defences.
