

The Indian Banks' Technology Consortium (IBTC)

The Indian Banks' Technology Consortium (IBTC) is a body established by IDRBT to work with Indian banks, academia, industry bodies and outstanding professionals for the advancement, development and practical application of technology in banking.

IBTC shall provide a platform for pioneering new technologies, collaborative research and for sharing and solving problems and challenges in banking technology.

IBTC shall develop and update standards in the use of technology and information security in banks for improving customer service and advocating regulation/legislation.

Inaugurated today, the 3rd of August, 2012 by

Dr. D. Subbarao

Governor, Reserve Bank of India & Visitor, IDRBT

in the presence of

Shri Anand Sinha

Deputy Governor, Reserve Bank of India & Chairman, Governing Council, IDRBT
