

Programme on

CYBER DEFENCE

Coordinator: **Dr. Rajarshi Pal**

OCTOBER 09 - 13, 2023 (OFFLINE MODE)

Introduction

Banks have increasingly become targets for cyber attacks as the criminals eye for financial gain. The attackers target banks infrastructure. Recent years have seen a series of malware based attacks like attacks on core banking system. DDoS is also envisaged as an emerging threat for banks. There are attacks exploiting customers too. Examples include phishing/vishing scams or exploiting vulnerabilities of the devices that customers are using. Hence, banks are required to adopt manifold strategies to combat cyber attacks. At one hand, they have to embrace new technologies to protect their infrastructure. On the other side, they have to take awareness initiatives for their employees and customers.

Objective

The objective of this program is to enlighten the participants with the knowledge and hands-on experience on cyber defence. In turn, it will help banks and other financial institutions to strengthen their cyber security posture. The five-day program aims to cover several aspects of cyber security and cyber forensics. A little bit knowledge of relevant clauses of IT Acts also help participants to understand their position in the techno-legal scenario that arises due to cyber attacks.

Contents

- ★ Defence against APTs
- ★ Network Packet Inspection
- ★ Authentication techniques
- ★ Security Operations Center
- ★ Web/Mobile Application Security
- ★ API Security
- ★ Phishing and countermeasures
- ★ PKI
- ★ Malware analysis
- ★ Defence against DDoS
- ★ Transaction analysis
- ★ Legal coverage under IT Acts
- ★ Mobile Banking Security
- ★ VAPT
- ★ Threat Intelligence
- ★ Cyber Forensics

Who can Participate?

Staffs from IT/Information Security/Audit/Risk department of banks and other financial institutions can attend the program.

End Use

The program will strengthen the participants in cyber security. They will be able to deploy appropriate technologies and strategies to counter cyber threats.
