INSTITUTE FOR DEVELOPMENT AND RESEARCH IN
BANKING TECHNOLOGY, HYDERABAD
(ESTABLISHED BY RESERVE BANK OF INDIA)

Introduction

Digital banking refers to the digitisation of banking services. The banking industry is driven by the digital transformation in the financial industries is a unceasing process affecting products and services provided to end users, internal processes and existing service models. The modern innovation towards payment channels have enable citizens to undertake real time digital transactions. However, the threat landscape has grown dynamically such as online payment frauds, malware campaigns, scamming, phishing, etc. Therefore, regulators and stakeholders in the payment industry must adopt a proactive approach to identify the threat vectors and incorporate better preventive strategies. Managing these multiple channels, ensuring efficient, satisfactory, safe and speedy payment services to banking consumers is becoming a daunting task for bankers.

Objective

The objective is to enlighten the participant regarding the challenges and concerns related to Payment Systems. In addition, online payment fraud methods, associated risks. The brief discussion upon methods for incorporating better fraud prevention strategies, the scope of upcoming technologies, and recommendations for stakeholders.
