

Programme on

# CONTINUOUS SECURITY VALIDATION

**JANUARY 06 - 08, 2025**  
(Offline Mode)

Coordinator: **Dr. V. Radha**

INSTITUTE FOR DEVELOPMENT AND RESEARCH IN  
BANKING TECHNOLOGY, HYDERABAD  
(ESTABLISHED BY RESERVE BANK OF INDIA)

## Introduction

Banking and other Financial Services industries are constant targets for cyber criminals. To protect and safeguard from these cyber threats posed by cyber criminals, banks have been enhancing security measures by deploying the latest security technologies.

However, validating the effectiveness of these security technologies remains a challenge. This Programme is designed to share knowledge about the practices, methods and tools that can validate the effectiveness of various security controls.

## Objective

The objective of this Programme is to provide information about the latest security validation methods, practices and platforms that help in carrying out security validation. In turn, these steps will help organisations to strengthen their cyber security precautions.

## Contents

- ★ **Security Validation – The Past:** Focusses on the methods practiced in the past like the VAPT, Patching; its pros and cons
- ★ **Security Validation – The Present:** Spotlights the present methods like Red Team and Blue Team Exercises, Threat Hunting, BAS – Breach and Attack Simulation; its pros and cons
- ★ **Security Validation – The Future:** A system that continuously monitors and tests the security controls in the enterprise. Also highlights how CSV is different and the ways and means to carry CSV

## Who can Participate?

Officers from Banks and Financial Institutions managing Cyber Security / IT, etc.

## End Use

This Programme is designed to provide the participate with the latest know-how so as to help them significantly improve the security of their enterprise and achieve better cyber security maturity levels

## Mode of Teaching

Offline mode of teaching with learning materials, quizzes per theme.
